PROFESSIONAL SUMMARY

Aspiring AI/ML engineer with internship experience in machine learning model development and data preprocessing. Skilled in Python, Scikit-learn, TensorFlow, and Power BI. Passionate about building intelligent systems and eager to contribute to innovative projects

EDUCATION

Institute of Aeronautical Engineering, Hyderabad, India	Expected graduation: May 2027
B.Tech in Computer Science and Engineering (Artificial Intelligence and Machine Learning)	GPA:7.6/10.0
Vathsalya Institute of Science and Technology, Hyderabad, India	May 2024
Diploma in Computer Science and Engineering	GPA:7.5/10.0
Ts Model School, Dariyapur, Peddapalli	March 2021
SSC	GPA:10/10.0

TECHNICAL SKILLS

Programming Languages: Python ,SQL

Tools: Excel ,VS Code ,GitHub Actions, Jupiter Notebook

Front-End: HTML, CSS, JavaScript

ML Libraries: Pandas, Numpy, Scikit-Learn, Matplotlib, TensorFlow ,Seaborn, Matplotlib

Soft Skills: Excellent Communication, TeamWork, Problem-Solving, Critical Thinking

INTERSHIPS

Cloud Technologies, Hyderabad, Telangana

Machine Learning Intern May-5 – May-30

- **Developed and trained ML models** using Python libraries (e.g., Scikit-learn, Pandas, NumPy) for tasks such as data classification, regression, and prediction.
- **Performed data preprocessing and feature engineering** to clean, transform, and optimize datasets for better model performance.
- **Implemented and evaluated model performance** using metrics like accuracy, precision, recall, and R² score, and optimized hyperparameters for improved results.

PROJECTS

Forward privacy Prevention ([GitHub](#)) July 2025

- **Engineered a forward privacy prevention system** to safeguard sensitive data in cloud environments, mitigating risks of unauthorized access and enhancing overall security compliance.
- **Implemented advanced cryptographic algorithms** using Python and secure encryption libraries, ensuring data confidentiality while maintaining optimal processing speed.
- **Optimized and validated the solution on real-world datasets**, improving scalability and reducing potential vulnerabilities by 25% through efficient resource utilization.

Expense Tracker ([GitHub](#))

- Real-world expense management system that tracks monthly income, expenses, and savings in Indian Rupees (₹).
- Clean, modern, responsive UI designed to deliver a smooth and intuitive user experience.
- End-to-end web application built by Orchids, showcasing practical frontend development and data management skills.

CERTIFICATES

Certificate on Generative AI for Data Science – Microsoft	May2025
Certificate on Building a Machine Learning Ready Organization – AWS	April 2025
Certificate on Building LLM Applications With Prompt Engineering – NVIDIA	July 2025
Certificate on AWS Certied Developer – Infosys	May 2025
Certificate on Data Analysis with Python – IBM	April 2025

CODING PROFILES

LeetCode: 100+ Problems Solved

Hacker Rank: 50+ Problems solved

GeekforGeeks: 60+ Problems solved

E-PROTOFILES

- Portfolio: <https://ajaygopagoniporfolio.netlify.app/>
